

The regulatory body investigates the effect of a new passenger rail service on the economic equilibrium of a public service contract following a request made by an entity specified in article 11 (2) of Directive 2012/34/EU. The request must be made within a month of the notification concerning the new rail passenger service, as specified in article 11 (2) of the Directive amended by Directive 2016/2370.

Such a request must include the information specified by the Commission Implementing Regulation 2018/1795 and detailed in this form. If the organisation presenting the request requests that commercially sensitive information be kept confidential, it must specify such information and the grounds for its request.
